# Play Fair! Play Smart!

Who needs a cheat code when you're playing to win? What you really need is a game plan to unlock rare items and attain impressive achievements in video games—that's what this book is all about!

Whether you own a Nintendo Wii, Xbox 360, Sony PlayStation 3, or Nintendo DS, you'll find plenty of tips for locating obscure items, unlocking tough achievements, and winning big in multiplayer contests. You'll find information about a variety of game situations on a wide selection of titles, including tips for the beginnings, middles, and ends of your favorite video games.

Before you turn the page to find your favorite games, keep a few things in mind:

## DLC Happens

Some game titles featured in this book may receive additional downloadable content (DLC), which means there's a small chance that some of the information and conditions for unlocking items or achievements could change in the future—but that's a very small chance.

## Consult Your Console

Xbox 360 Gamerscore Achievements and PlayStation 3 trophies might be featured on games with identical titles, but these awards are not always identical. For example, PlayStation 3 trophies include a platinum trophy for unlocking all the trophies in a game, but you usually won't find a similar Gamerscore Achievement for Xbox 360 games. To avoid confusion, be sure to consult the correct achievement award lists for your game console(s).

## Win Awards Fast

In some games, we highlighted specific Xbox 360 Gamerscore Achievements and PlayStation 3 trophies because there's a trick or handy strategy to earning those awards. If you want to maximize your awards with only a few hours of game play, check out those sections first.

## Set Reasonable Goals

Some of these challenges take many hours of game play. You're obviously not going to win the "It Takes Time (HR)" Bronze Trophy in a single night of playing MLB 09: The Show on the PlayStation 3, so start with reasonable goals—like winning the Bronze Trophy for stealing three bases in one Road to the Show game.

Use this guide to unlock the biggest challenges in today's video games, and remember —have the fun along the way!

## ANIMAL CROSSING: CITY FOLK

### NINTENDO WII

#### The Catch of the Day That Pays!

Does a Black Bass sell for more than a Clownfish? Most Animal Crossing anglers fish until their inventory is full, but if you know how much a fish is worth, you can keep the stuff that sells for the most Bells! This practical list can help you catch and keep the most valuable fish, giving you a whopping profit when you sell them to Tom Nook!

**Tip:** So where and when can you catch the most valuable fish? Your best chances for finding the Stringfish are in the river during twilight and evening hours throughout December, January, and February. The Coelacanth can be found in the sea all year in the twilight and evening hours—but you can only catch the fish when it is either raining or snowing!

## Don't Let Earning Bells Bug You!

While chasing down bugs and butterflies for Bells is fun, you'll find it more profitable if you know the value of the Bells in your net. The list below will show you how much a bug is worth so you can fill your inventory with the most worthwhile catches in the game!

These beetles are only found very late in the evenings through early mornings in July and August. While the Golden Stag Beetle likes ordinary trees, the Hercules Beetle prefers palm trees. It's not uncommon to find only one of these beetles a year!

Have a friend link to your town and visit Nookway, then spend at least 240,000 Bells.

**How Do I Earn Golden Items?**

Some golden items are easier to earn than other items. The Golden Shovel is usually the first gold item that new players collect.

**Golden Item****How to Earn It**

Golden Axe

Trade a Scallop shell with Pascal (he's on the beach once a week)

Golden Bug Net

Catch one of every bug in the game

Golden Fishing Rod

Catch one of every fish in the game

Golden Slingshot

Knock 15 items out of the sky with your slingshot, and then shoot down the Golden Slingshot

Golden Shovel

Bury a normal shovel and then dig it up 24 hours later. If you waited long enough, you'll uncover the Golden Shovel

Golden Watering Can

Weed and water your surroundings and if you keep it perfect for 16 consecutive days, you'll earn the Golden Watering Can from Pelly or Phyllis.

**Where Do I Find the Scallop Seashell?**

Trading items in Animal Crossing: Wild World is the only way you'll earn the Golden Axe from Pascal, but the trading steps are complicated and it takes a little time. The first step is to buy a Red Turnip from Joan.

## **AVATAR: THE LAST AIRBENDER: THE BURNING EARTH**

XBOX 360

### **An Easy 1,000 Points!**

Avatar: The Last Airbender: The Burning Earth offers an opportunity to earn 1,000 Gamerscore Achievements in one minute, which makes it the absolute must-have for Gamerscore point farmers. You can earn your points in the first area of the first level, but the trick is knowing where to stand.

## The First 300 Points

Start in Chapter 1, stand near the center of the courtyard, and press B until you defeat all the guards. This should earn you The Flow of Combat I and The Flow of Combat II achievements before the general talks to you. That's 300 points!

## It's All About the B Button

After the general calls in more troops, the game will direct you to use your combo attacks with the X Button and it will teach you how to block by using the RB Button—but keep pressing the B Button instead!

By using only your B Button on these attacks, you'll advance your Hit Counter to a maximum of 50 in less than a minute of game time.

The trick is to avoid being hit while constantly hitting the B Button. If you're hit by one of the guards or hurt in any way, your hit counter will go back to zero and you'll have to start over again!

You'll find it easier to increase your Hit Counter if you target and knock back the guards closest to you first, and then keep them all at a distance. If you accomplish this, you'll earn The Flow of Combat III, The Art of Combat, and the One with Combat achievements in roughly one minute! Remember to use the B Button—no other buttons!

## Avatar: The Last Airbender: Burning Earth Gamerscore Achievements

Achievement	How to Earn It	Points
The Flow of Combat I	Achieve a hit counter of 10	150
The Flow of Combat II	Achieve a hit counter of 20	150
The Flow of Combat III	Achieve a hit counter of 30	200
The Art of Combat	Achieve a hit counter of 40	200
One with Combat	Achieve a hit counter of 50	300

### Find the Parking Garages!

You can find the repair shops, gas stations, and junkyards on your in-car GPS map, so why can't you find the parking garages? Most parking garages take you up to higher elevations, where you'll find stunt ramps and passages to boosts, billboards, and other cool secrets. Whenever you see a sign with a Yellow "P" for parking garage, hit the e-brake and head into the lot. Drive to the top of the parking buildings, and you might take your billboard-bashing scores to higher levels!

### Are You Missing Super Jumps, Billboards, or Smashes?

Tracking down the last Super Jumps, Billboards, and Smashes in Burnout Paradise can be as tough as mastering your Burnout Elite License, but there is a handy menu that can help you find what you're missing.

- + Pause your game and go to the Burnout Paradise Network.
- + Click on the Stats tab, and then click on the Discovery button.\*
- + The Discovery Menu breaks down your Super Jumps, Billboards, and Smashes according to five areas in the game—Palm Bay Heights, Downtown Paradise, Harbor Town, White Mountain, and Silver Lake.

*\*Depending on your console, you might have to press the X Button on the PS3 or the A Button on the Xbox 360 controller to "click" on an item in this menu.*

## Road Warrior Tips for Road Rage Mode in Paradise City

If you race enough, you'll realize that driving through a gas station along a course can top-off your boost rating so you can use it for more speed. This same strategy works with the Repair Shops in Road Rage mode—you can increase your vehicle's endurance by driving

through a Repair Shop in Paradise City during the event. You can only drive through a Repair Shop for repairs **ONCE** during the Road Rage event, so save your Repair Shop stop until the colors on your screen fade almost to black-and-white (the scenery around you loses color as your car strength runs out).

## Maintain Your Speed

While most players know to choose the strongest Aggression car from their Junkyard inventory, some slow down too much during the event (especially when making sharp turns) and this makes their cars an easy target for rival ragers bent on destruction. Speed is just as important as car strength for the final Takedown challenges in the game.

**Want to Lead in Multiplayer? Watch the Followers!**

If you want to be a leader in Carcassonne games against the computer or other players, focus on where other players place their follower/meeples. Playing your follower/meeples late in the game can help you win huge points, especially in farmlands. You can also trap other players' follower/meeples and limit their ability to win points at the end of the game. Here are some of the best traps:

## Unfinished Towns

Players often drop their follower/meeple pieces inside town walls, but if you extend and expand the width of these walled areas (especially with complicated pieces that include town walls and a road), your opponents will have a tougher time completing their walls and they'll lose a follower/meeple in the unfinished construction.

## Unfinished Roads

Players who place a follower/meeple on a road must complete both ends of the stretch with an intersection, a town gate, or a monastery. If you pick up an end-piece for a road, don't place it where your opponent can use it and gain extra points. Focus on making your own road or creating a faraway detour that your opponent can't use for points.

## Unfinished Monasteries/Cloisters

You can't score points for a follower/meeple inside a monastery/cloister unless you can surround the structure with eight square tiles, that's why most players with a monastery/cloister tile try to place the building next to a group of tiles already on the board. If your opponent places a follower/meeple inside a monastery/cloister, don't help them finish construction. Just surrounding a monastery/cloister halfway requires four turns, and that's four turns where your opponent must focus on placing tiles in one spot while you build and add extra points in other areas on the board.

## Don't Create Huge Pastures

Followers on big open spaces score the most points in the game, but a follower/meeple sent to pasture can't be retrieved. If your opponent places a follower/meeple in a pasture, quickly close off the plot with city walls and roads. On Carcassonne's easy difficulty, you'll find that the computer player doesn't use follower/meeple in farmland, so you should take advantage of these extra points before placing the final tiles.

## Know the Odds for Important Tiles

As you play more games, you'll notice that there are a finite number of tile pieces and configurations. Later in the game, you'll be able to guess which tiles will be drawn if you remember how many of these important tiles are in the deck:

- + Four tiles feature a three-way intersection.
- + Three tiles feature a three-way intersection next to a city wall.
- + There are three city gate tiles but only two of these tiles feature shields.
- + Four monastery/cloister tiles are surrounded by pastures.
- + Two tiles feature a monastery/cloister at the end of a road.
- + There is only one tile featuring a four-way intersection.

**Tip:** *Counting the intersection pieces on the board and knowing how many are left in the deck makes it easy to trap your opponent's follower/meeple pieces on roads late in the game! And doing the extra math can make it easier for you to score the most points in a game!*

# CIVILIZATION REVOLUTION

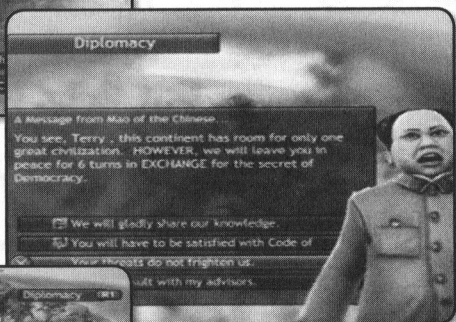

PLAYSTATION 3, XBOX 360

## The Best Trick for Unlocking Great People in a Hurry

The secret to unlocking all of the Great People in the game is to raise your culture level through culture bonuses. Select the Romans or the Greeks for your civilization—they have a small bonus for attracting Great People. Make your task easy by choosing the easiest difficulty level (Chieftain, so you can avoid attacks) and playing the Beta Centauri scenario. This scenario starts with all technology, so you can focus on making out your rating culture. Switch your government style to Monarchy to add to this cultural bonus, and then build structures like courthouses, temples, and cathedrals that add cultural value.

**Tip:** If you select the Greeks for your civilization, you'll automatically start with a courthouse. Later in your game, you can add the Magna Carta wonder to your courthouse for an additional cultural bonus.

Once your culture is growing rapidly, choose a challenging wonder so the game progresses without interruption until you have all the Great People unlocked!

## COLLEGE HOOPS 2K6

XBOX 360

### Create a Maxed-Out Player

Set the play mode to Simulation and drop the difficulty level to Starter. You can probably earn 700 Gamerscore Achievements in one game if you create a player with maxed-out abilities and maximize the game length.

### College Hoops 2K6 Gamerscore Achievements

#### Get 45 Rebounds with Any Team

200 points

Fire shots from the three-point line with your newly customized star player. If you're playing with a highly rated team, there's a good chance they'll catch a lot of offensive rebounds.

## Make 15 Three Pointers in One Game

### 250 points

This feat is easy if you feed the ball to your customized star player. It also helps if you turn off player fatigue and verify that you're playing with the longest possible game time in Simulation mode.

## Score 40 Points With Any Player

### 250 points

If you're feeding your star player the ball and he's shooting from the three-point line, you'll nail this feat with the one above.

## Get 20 Steals With Any Team

### 150 points

Set the game time to the maximum allowed for each half and be sure to choose a team that's rated high (about five basketballs on the graph) for Defense. Use the Right Analog Stick to strip the ball, but keep in mind that your team will probably be called for more fouls than in most games. Remember, you're looking for a 20-steal total for the entire team, not a single player.

**Get 6 Blocks with Any Player**  
**150 points**

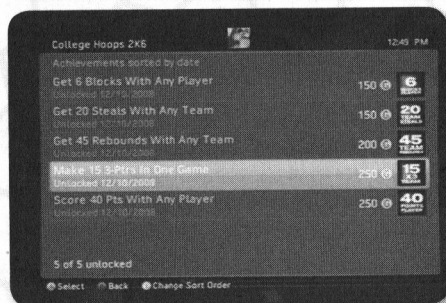

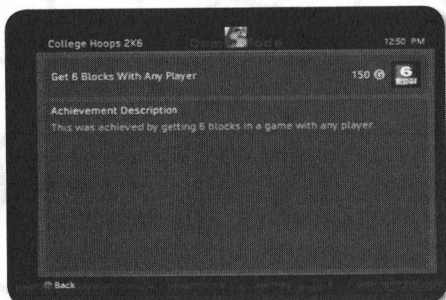

At the Game Sliders option on the Options menu, max out the Block Attributes on Defense. (Otherwise, you must time your block with your customized star player and knock the ball back without creating a foul.)

If you're still fouling out, go to Rules on the Options menu and turn off Goaltending. Then push the Left Block and Reaching Fouls sliders to zero. If that doesn't work, allow the computer players to block for you by keeping the best defensive players on the court throughout the entire game.

**Best Opponents**

While choosing a good team isn't a big problem in College Hoops 2K6, finding the easiest teams to beat can take some work. Here are the best opponents to play for Gamerscore achievements (conferences are in parenthesis to help you find these teams):

- + Savannah St. (IND)
- + Princeton (IVY)
- + Morgan State (MEAC)

## DIRT

PLAYSTATION 3, XBOX 360

### Translating Pacenotes

Although rally racing is popular throughout the rest of the world, North American race fans don't get to see much of it on television. This can make it hard to figure out the pacenote directions your co-driver is giving you when you're racing in the Rally and Rally Raid stages.

Here are the translations:

**"60 left five"** means that the curve 60 meters ahead turns left and can be taken in 5th gear.

B  
C  
D

O  
P  
Q  
R  
S  
T  
U  
V  
W  
X  
Y  
Z

Depending on road surface and weather conditions, you'll find that you don't have to brake at all on turns that are rated for 6th and 5th, and possibly 4th, gears, unless your driver says:

**"80 right four tightens."** This

means that the curve

80 meters ahead turns right and should be taken in 4th gear—and the corner will seem sharper toward the end. If the course is narrow and you manage to gain a lot of speed in the 80 meters before the turn, it's probably a good idea to tap the brakes, especially if there isn't a guardrail to keep you on the racecourse.

On technical courses, your co-driver will give you several course instructions at once:

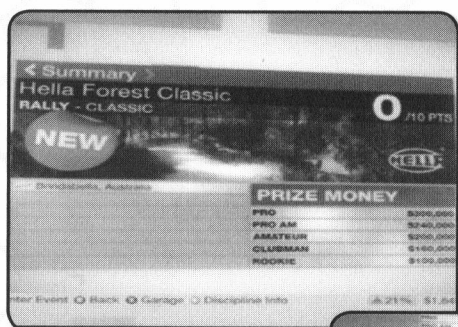

**"Jump into left four, right three"** means that there is a jump, followed by a 4th-gear left turn and then a 3rd-gear, right turn. In this case, you must be ready to tap the brakes as you land after the jump, but the quick left-right turn combination might be enough to lose speed without forcing you to hit the brakes.

**Watch That Crest!**

Because you can't see everything on the course, learn to trust your co-driver's pacenotes, especially when you hear the term "at crest." There's a good chance an upcoming hill will block your view of what's ahead. Also, recognize that any "crest" will be a "jump" in the pacenotes if you're driving fast enough.

**Say what?** Later in the game, you'll encounter technical courses with lots of blind turns and fast bends, so your co-driver's pacenotes might sound a little confusing until you have more practice. If you're feeling confused, just listen for the gear numbers in the pacenotes. Be ready to brake if you hear a number three or lower.

## Going Up!

As in other rally video games, it's important to remember that the pacenote readings for gear choices around turns are guidelines. As you advance into the higher tiers, you must push the limits of your car and take turns in higher gears to win first place. Because the Rally Raid trucks move slower and require more time to accelerate, you'll find that you can navigate some course turns much faster than the gears recommended by your co-driver—especially going uphill. But in most cases, you'll still brake for any pacenote turn with a "one" or "two" in it.

+ Watch the time carefully and be sure to let the team playing against Liechtenstein take the lead.

+ Wait until the last minutes of the second half—85 minutes is a good goal—then pause the game, choose Match Options and Select Sides.

Switch your controller from Liechtenstein to the strong opponent game—and don't let Liechtenstein win!

+ Depending on how much time you have left in stoppage, you might find yourself fighting off a couple of shots from Liechtenstein (at the Perfect difficulty level this tiny team is a formidable foe). Do your best to keep the ball and use long passes (press the X Button) to clear the ball from your end. If you can hold off the assault, you'll pick up 50 Xbox Gamerscore Achievements in less than five minutes of actual playing time!

## A Winning Man of Match Achievement Strategy

Strikers tend to score more than midfielders and defenders, but you must play smart to win the Man of the Match awards 50

times for all three positions. Most FIFA 07 gamers have no problem earning the Man of the Match award for their strikers because the game usually awards the Man of the Match award to either the best goal scorer (a striker) or a goalie with a clean sheet (no one scored against him). But there is one proven trick: Swap your strikers for midfielders for the midfielder Man of the Match award, and then swap your strikers and midfielders for defenders for the defender Man of the Match award.

Even if your defender is playing forward in a new role, the game will still record his Man of the Match award as a defender. The challenge is finding good defenders who can also score goals. Phillip Lahm, John Terry, and Fabio Cannavaro are all easy picks as defenders who can score goals and win Man of the Match awards.

### 125 Quick and Easy Xbox LIVE Gamerscore Points!

Earning triple-digit FIFA Gamerscore points normally requires hours of gameplay, but with a little careful planning and a lot of simulating, you can win 125 Gamerscore points without setting foot on the pitch. Here's what you do:

- + Go to Game Modes.
- + Choose Tournament Mode, and then Create Tournament.
- + Choose Knockout and put the Number of Teams at 64.
- + Select "NO" for Auto Fill Teams.
- + Now, choose your opponent teams.

*This is time-consuming, but it takes much less time than attempting to win a 64-team tournament with the computer sorting for you.*

- + Find teams for your tournament with one star or less. You can also choose a number of these one-star teams as your personal team, but make sure that they have an ATT rating near 60. Some of the worst half-star teams in FIFA 09 can be found in leagues in Ireland, in

England's Coca-Cola Leagues, or in The Rest of the World rankings.

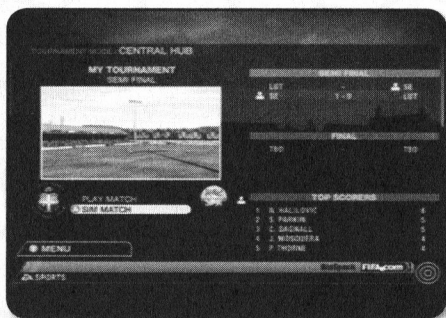

- + After you find all the half-star teams, fill up the remainder of the spots with one-star teams from small, underpowered leagues in Poland, Sweden, Austria, Australia, Switzerland, the Czech Republic, and Germany's 2. Bundesliga.
- + After you assign all of the one-star and half-star teams to tournament slots, save your file, so you don't have to sort through 64 teams for this achievement again.
- + Choose a good team for yourself, or if you want to make things a bit challenging and play a bit, you can choose one of the strong one-star contenders from the list below.

**Tip:** If you don't choose the winning team the first time you simulate the tournament, you can return to your saved files and hopefully pick winners who advance beyond the group stages!

Strong one-star contenders include:

- + Sønderjyske (Denmark SAS Ligaen)
- + Tescoma Zlin (Czech Republic Cescka Liga)
- + Shrewsbury (England Coca-Cola League 2)
- + AFC Tubize (Belgium Pro League)
- + SCR Altach (Austrian Bundesliga)
- + Peterborough (England Coca-Cola League 1)

Once you have 50 Gamerscore points from your 64-team custom tournament, go back and select the following:

- + Go to Game Modes
- + Choose Tournament Mode, and then Create Tournament
- + Choose Knockout and put the Number of Teams at 16
- + Select "NO" for Auto Fill Teams

Repeat the same team assignments, but select up to 15 half-star computer-controlled teams from Ireland or England's Coca-Cola Leagues. Choose one-star teams for yourself (any of the strong one-star contender teams listed above will work fine). Remember that you can win these 75 Gamerscore points as long as one of your selected teams wins the tournament!

## FORZA 2 MOTORSPORT

XBOX 360

### Earn Extra Funds without Spending Extra Time Behind the Wheel

Extended Endurance races might seem like a long haul, but starting at level 20, you can use the Hire Driver option to buy your way into these races. This technique can earn you thousands of game credits in FORZA2 Motorsport—without actually playing the game!

Although good drivers charge you about 60% of your winnings (don't pay more than that unless you don't want to pay for car upgrades), you can earn more than thirty thousand credits for a race that you don't have to drive!

### Tip: Joystick Trick

There is one trick you should know before heading down this expressway to easy profits—you must jiggle the Analog Stick on your Xbox 360 controller about every ten minutes or your controller will shut off and the game will pause. If you have a subwoofer attached to your game system, you can use an object to balance your controller upside down on top of the subwoofer speaker (as long as your parents don't mind a little extra racing noise). The vibrations from the subwoofer speaker should be enough to keep the Analog Stick moving slightly and the controller won't turn off and pause the game. Even if you don't have a subwoofer, the Analog Stick is sensitive to any sort of movement, so be creative!

**TIP:** Don't worry about tuning your car setups for your hired drivers—those setups are for you! If you need faster results in an endurance race and you can't upgrade your car components, hire a driver who demands more money. The best and most aggressive drivers might charge you for 90% to 100% of your winnings, but the trophies, unlocked cars, and Gamerscore Achievements are yours to keep!

## Be a Big Winner in the Proving Grounds Heavyweight Open

Many racers floor it all the way to Level 50 without ever finding a qualifying car for the Level 10 Heavyweight Open Series. The trick to qualifying isn't finding a fast car that weighs 3,850 lbs. (or 1,746 kg.)—you can also customize one of your existing race cars so it can qualify without falling behind at the starting line!

These weighty winners are some of the fastest you'll find:

- + Aston Martin V12 Vanquish
- + Audi RS 6
- + Bentley Continental GT
- + Cadillac CTS-V
- + Dodge Charger SRT-8 (for sale when you reach Level 18)
- + Ferrari 575M (with Forza Race Front Bumper, Rear Wing, and Rear Bumper installed)
- + Ferrari 612 Scaglietti
- + Mercedes CLK55 AMG Coupe

On other cars, add front bumpers, rear wings, rear bumpers, and wide heavy wheels to meet the qualifying weight for the Heavyweight Open. Pay attention to the speed ratings for your modified vehicles or you might find yourself quickly off the pace against rivals with monstrous horsepower!

## HARVEST MOON

### NINTENDO WII VIRTUAL CONSOLE

#### How to Find All 20 Endings in the Game!

Harvest Moon on the Wii Virtual Console features over 20 different endings—but the trick is knowing how to find them all! Here are tips for finding the endings.

**Remember:** If you qualify for more than one ending, the game will choose it for you. For example, if you ship more than 200 tomatoes and more than 200 potatoes, the game will pick one of those two endings, but you won't see both of them.

Ending	Conditions	Final Scene
1	Earn a Happiness score of less than 100. Earn less than 1000 gold.	You'll hear your dog barking as you leave your farm. This is the worst ending possible in the game.
2	Own 7-12 cows	Your cows trot toward you as you ring the bell.
3	Own 1-6 cows	You brush and milk a cow as livestock wander around.
4	Own 1+ chickens	While collecting eggs in your coop you accidentally drop an egg.
5	Own 1+ cows. Earn a 192-255 Love Score.	Your cow gives you a Large milk, and then you take a nap.
6	Ship 200+ corn	You're in your field watering the growing corn.
7	Ship 200+ tomatoes	You put tomatoes in your horse's saddlebags before taking a break.
8	Ship 200+ potatoes	You see your dog barking at a potato plant and then he chases after a mole.
9	Ship 200+ turnips.	You give a turnip to a Harvest Sprite
10	Still a bachelor at the end of the game. Earn a 100+ Happiness score.	Your dog and horse love you.
11	Still a bachelor at the end of the game. Earn an 800+ Happiness score.	As you chop wood, the mountain animals give you a Power Berry.
12	Marry Maria	You and Maria visit town.
13	Marry Ann	You and Ann take her newest invention to the store.
14	Marry Nina	After seeing a frog, you take Nina on a picnic.

Ending	Conditions	Final Scene
15	Marry Ellen	Ellen rides up to take you on a picnic!
16	Marry Eve	You and Eve share each other's company.
17	Still a bachelor at the end of the game. The total Love Rate score for all brides-to-be are 1500+. Earn an 800+ Happiness score.	All the girls notice you walking by.
18	Marry early enough in the game to have one child.	You and your wife watch your child crawl.
19	Marry as early as possible in the game so you can have two children. You must keep your wife very happy throughout the game to do this.	Your family arrives while you are working in the field and hugs you.
20	Marry as early as possible in the game so you can have two children. Own 1+ cows. Own 1+ chickens. Collect 10 Power Berries. Earn a 900+ Happiness score. Earn 10,000 gold. Hug your dog every day for 100+ times in the game (everyone forgets this step).	A big gathering—the best ending in game!

# HARVEST MOON: MAGICAL MELODY

NINTENDO GAMECUBE, NINTENDO WII

## Unlock Important Items!

Expand your farm and surroundings by completing these secret tasks:

Item	How to Earn It
Aging Pot	Earn five hearts from Saibara with gifts
Colored Vases	Mine and ship 10 good clays from your farm
Copper Fishing Rod	Find Ray at the Lake during daylight hours
Fertilizer	Ship at least 10 limestone from your farm
Level 3 Backpack	Earn three hearts from Martha and then bring her some yarn
Level 3 House	Earn a heart with Joe, Kurt, or Woody
Mixing Pot	Earn two-and-a-half hearts from Saibara with gifts
More Lots for Sale	Earn up to three hearts from the Mayor by giving him gifts
Pig	Build a Level 1 barn (and meet Gourmet at the Egg Festival)
Strawberry Seeds	Grow and ship at least 50 cabbages from your farm

**Tip:** The pig helps you find truffles in the fall around the Mora trees. You can dig randomly without the pig to find these fall truffles—but it's more work and time out of your day!

## Make Your Neighbors Return!

Hard economic times will force your neighbors to move off the island, but doing these tasks will bring them back to your village:

Neighbor	Task
Basil	Ship any herbs, flowers or Pontata Roots until he returns
Carl and Katie	Ship eggs and milk until they return
Dan	Ship 10 Very Berries
Dia and Gina	Ship herbs and Pontata Roots until they return
Eve	Ship grapes until she returns
Gwen	Ship 10 fish and 20 crops of any type
Ray	Ship fish of any type until he returns
Ron	Ship 10 fruits of any kind.

## Give the Perfect Gifts Every Time!

You can quickly win friends and possibly a hand in marriage by giving the correct gifts to your neighbors in Harvest Moon: Magical Melody. Giving the wrong gifts will make your neighbors dislike you, so focus on giving these items instead:

Neighbor	Gift
Ann	Corn, Good eggs
Alex	Herbs, Fertilized turnips, Vegetable juice
Basil	Herbs, Herb tea, Tomato juice, Fertilized strawberries

## HARVEST MOON: TREE OF TRANQUILITY

NINTENDO WII

### Plant Your Orchards with a Plan!

Plenty of farmers plant apple trees, but if you stick to this traditional plan, you'll only profit from your mature trees in the fall. An easy way to spread out your profits is to plan your plots and sow seeds that deliver different types of produce throughout the year:

Tree or plant	Harvest in the
Cherry	Spring
Grape	Summer
Orange	Summer

Fall

Plant a few cherry trees for spring harvests, and then move along to picking grapes and oranges in the summer. Switch to apples and chestnuts in the fall. You must clear a 3 x 3 square area before planting a sapling, and any nearby rocks, weeds, or stumps will block the growing tree roots. Each young tree requires an entire year to mature, so plan your orchards far in advance!

### What Can I Do When My Prize Cow Stops Producing Milk?

Cows eventually stop producing milk unless they give birth to a calf.

Most cows produce milk for three or four seasons before you must buy a Miracle Potion for them. Because you can't milk a pregnant cow, you'll have an unproductive cow in your barn for at least a season.

Experienced Harvest Moon farmers rotate their pregnant cow schedules, so they always have some pregnant cows and some cows that produce milk (and money!) for their farm. For example, if you own four cows, use the Miracle Potion on one cow while the other three produce milk through the rest of the season. After a calf is born, use the potion on a different cow. This way, you never run out of fresh milk and income from your herd.

### Which Levels Still Have Missing Civilians?

Look for the frowning LEGO heads at the stage map screen. If you see a frown, there are still hostages or civilians who

need help there. A smiling face means that you saved all the Gotham citizens in that area!

#### Levels with civilians include:

Episode 1, Chapter 1	You Can Bank on Batman
Episode 1, Chapter 2	An Icy Reception
Episode 1, Chapter 4	A Poisonous Appointment
Episode 1, Chapter 5	Face Off
Episode 2, Chapter 1	There She Goes Again
Episode 2, Chapter 3	Under the City
Episode 2, Chapter 4	Zoo's Company
Episode 2, Chapter 5	Penguin's Lair
Episode 3, Chapter 1	Joker's Home Turf
Episode 3, Chapter 2	Little Fun at the Big Top

**Levels with civilians include:**

Episode 3, Chapter 4	In the Dark Night
Episode 3, Chapter 5	To the Top of the Tower
Episode 4, Chapter 1	The Riddler Makes a Withdrawal
Episode 4, Chapter 2	On the Rocks
Episode 4, Chapter 3	Green Fingers
Episode 4, Chapter 4	An Enterprising Theft
Episode 4, Chapter 5	Breaking Blocks
Episode 5, Chapter 1	Rockin' the Docks
Episode 5, Chapter 2	Stealing the Show
Episode 5, Chapter 4	A Daring Rescue
Episode 5, Chapter 5	Arctic World
Episode 6, Chapter 1	A Surprise for the Commissioner
Episode 6, Chapter 3	The Joker's Masterpiece
Episode 6, Chapter 4	The Lure of the Night
Episode 6, Chapter 5	Dying of Laughter

**Tip:** Of all the civilian rescues, *A Daring Rescue* tends to be the one that stumps most caped crusaders. Go to the room with the red, green, and yellow pipes and use the Joker's Buzzer to start the generator and open a small metal gate. Enter the gate and go across the bridge to save the hostage!

## **A Bright Idea**

How many times have you taken a tumble off a ledge in the Bat Cave? Gotham is a dark place. If you play more than a stage, you've probably bumbled around in the dark or missed some important clues. Here's a simple trick to spot hidden surprises—turn up the brightness on your television. (If your parents don't like you adjusting the television settings, try playing the game with the room lights turned off—just watch your step when you get up to take a break!)

## LEGO INDIANA JONES: THE ORIGINAL ADVENTURES

XBOX 360, PLAYSTATION 2, PLAYSTATION 3,  
NINTENDO WII

### Special Delivery!

After you complete a level in Story mode, revisit it in Free Play and look for the red parcels. Red parcels contain special extras that you can buy in the Barnett College mail room (the room directly across the main hall from the classroom). There's a trick to getting most red parcels and you must take along a character or two with special abilities to find these rare objects.

Here are the levels and skills essential for unlocking all the red parcels in the game:

Level	You Need a Character with	Parcel Contents (Stud Cost)
The Lost Temple	Thuggee Chant ability	Fast Fix (30,000)
Into the Mountains	Enemy Disguise ability	Super Slap (25,000)
City of Danger	Academic ability	Treasure x2 (1,000,000)
The Well of Souls	No special ability	Fast Dig (50,000)

Level	You Need a Character with	Parcel Contents (Stud Cost)
Pursuing the Ark	Explosives ability	Fast Build (40,000)
Opening the Ark	Academic ability	Artifact Detector (250,000)
Shanghai Showdown	Explosives ability	Treasure x4 (2,000,000)
Pankot Secrets	Thuggee Chant ability	Poo Treasure (70,000)
The Temple of Kali	Repair and Academic abilities	Super Scream (80,000)
Free the Slaves	Explosives ability	Character Treasure (100,000)
Escape the Mines	Academic ability	Treasure x6 (3,000,000)
Battle on the Bridge	Explosives ability	Regenerate Hearts (150,000)
The Hunt for Sir Richard	Tiny Size ability	Parcel Detector (125,000)
Castle Rescue	Thuggee Chant and Explosives abilities	Disarm Enemies (100,000)
Motorcycle Escape	Super Jump ability	Treasure x8 (4,000,000)
Trouble in the Sky	No special ability	Treasure Magnet (100,000)
Desert Ambush	Super Jump ability	Treasure x10 (5,000,000)
Temple of the Grail	Explosives ability	Invincibility (1,000,000)

After you find a parcel, look for a gray and red mailbox. If you can't find a mailbox, look for a stack of unassembled LEGO blocks—some mailboxes must be built before the parcels can be delivered!

NINTENDO WII**Grappling Hook or Double Jump?**

The arms that you wield in LEGO Star Wars: The Complete Saga will determine how you get around to places throughout the game levels. If you choose a character with a blaster, you won't be able to use a double jump, but you can throw a grappling hook. If you choose a character with a Lightsaber instead of a blaster, you can use the double jump to reach high spaces.

#### Where's the Tail Decoration for the Wooden Steed in the Garden's Get-a Grip-Level?

In the Tutorial section of LittleBigPlanet (LBP), figuring out how to use the Popit Menu can be a little tricky. When you reach the Wooden Steed in Get a Grip, you'll see some bubble objects, including one that looks a bit like a canoe paddle. When you pick up the item, the woman will tell you to put a sticker on the Wooden Steed. Here's how to find your Steed tail:

- + Press Square to Open your Popit Menu.
- + Choose Stickers and Decorations on the Popit menu and then press X.

# MADDEN NFL 06

XBOX 360

## Easy 1,000 Points!

Some of the first titles for Xbox 360, including Electronic Arts Madden NFL, offered an easy 1,000 Gamerscore Achievements. Here's how to do it:

Choose a highly rated team like the Indianapolis Colts and go up against one of the lower-rated teams, such as the New Orleans Saints. Extend the game time, and then settle in for a long simulated season. Even though the game tells you that you must complete 30 years of Franchise mode, you'll earn this accomplishment when the game ends after 28 seasons.

## Madden NFL Gamerscore Achievements

### Pass for 350 Yards

**100 points**

Pair the Indianapolis Colts against the New Orleans Saints. Remember to maximize your quarter time before starting a game.

### Rush for 200 Yards

**100 points**

Use the same approach

you used for earning 350 passing yards in a game. Pair the Indianapolis Colts against the New Orleans Saints and remember to maximize your quarter time before starting a game.

## Activate RS Card

**10 points**

Start a Franchise mode game and go to the season schedule. Click down on the Right Analog Stick and you'll open the RS Card Menu. That's it!

## Win the Super Bowl

**100 points**

If you choose a good team to simulate in Franchise mode, there is a good chance that your team will make it to the Super Bowl several times.

## Enter History Book

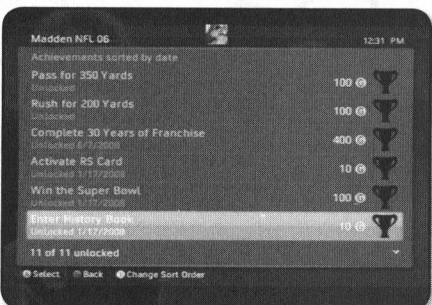

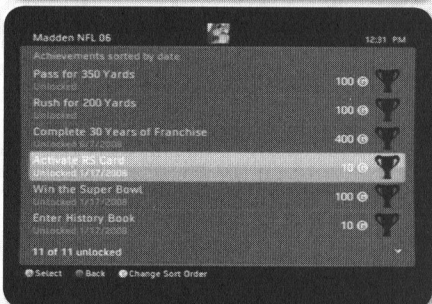

**10 points**

Simply open the History Book menu in Franchise Mode. You don't even have to play a game!

## Complete 30 Years of Franchise

**400 points**

It's not whether you win or lose in your 30 years of Franchise, but how

long you can simulate the game. While some hardcore gamers might want to play an entire season, you can select simulation for all 30 years and earn 400 Gamerscore Achievements in a few hours.

The following achievements don't require explanations and can be accomplished in a single game in Franchise mode. Most players use their favorite teams to unlock these Gamerscore Achievements, but if you have trouble earning four sacks, consider switching to a team with a tougher defense. New England is always a safe bet.

Achievement	Points
Win a Franchise Game	100
Four Sacks in One Game	100
Complete an Offline Game	30
Get a First Down	20
Score a Touchdown	30

XBOX, XBOX 360, PLAYSTATION 2, PLAYSTATION 3,  
NINTENDO WII, PSP, NINTENDO DS

### Strength Matters in the Running Game

The most recent Madden titles factor in the ball carrier's strength when you press the Stiff-arm button, so be sure to consider the stiff-arm and trucking ratings. If you're going to play to win, especially against a team with an effective zone defense, you must know which running backs are the best in the game.

### Running Backs

The highest-rated running backs in Madden NFL 09 are:

Running Back	Team
1. LaDainian Tomlinson	San Diego Chargers
2. Steven Jackson	St. Louis Rams
3. Brian Westbrook	Philadelphia Eagles
4. Adrian Peterson	Minnesota Vikings
5. Larry Johnson	Kansas City Chiefs
6. Fred Taylor	Jacksonville Jaguars
7. Marion Barber	Dallas Cowboys
8. Frank Gore	San Francisco 49ers
9. Willie Parker	Pittsburgh Steelers
10. Ronnie Brown	Miami Dolphins

## Running Back Combinations

If you don't want to lose your star running back to injury, choose a team with a solid running game combination. The following teams have the highest-rated running back combinations in Madden NFL 09:

Team	Running Back Combinations
1. Jacksonville Jaguars	(Taylor and Jones-Drew)
2. Minnesota Vikings	(Peterson and Taylor)
3. Dallas Cowboys	(Barber and Jones)
4. Pittsburgh Steelers	(Parker and Mendenhall)
5. San Diego Chargers	(Tomlinson and Sproles)
6. New Orleans Saints	(McCalister and Bush)
7. Oakland Raiders	(Farges and McFadden)
8. Philadelphia Eagles	(Westbrook and Buckhalter)
9. Washington Redskins	(Portis and Betts)
10. Baltimore Ravens	(McGahee and Rice)

If your favorite team isn't listed among top-rated running backs but you still want to play using your favorite running plays, don't sweat it—just remember to press the Cover button in time to avoid a costly fumble and potential turnover.

## Which Madden NFL Teams Rate Highest?

If you're having a tough time picking the best NFL team for a certain Madden season, make a game plan based on one of the following teams. Keep in mind that this list doesn't include All-Madden or hidden teams. If your opponent allows you to choose an All-Madden roster, that should be your first pick. Also remember that most Maddenoholics tend to think that their favorite team is the best team in the game, regardless of how the team is rated in defense, offense, and overall categories.

## Starting Line Boost

All Mario Kart games feature a turbo-start secret—the trick is knowing when to hold your accelerator button. Watch the timer count down and press the 2 Button on your Wii Remote just as the number 2 on the timer begins to fade. If you've timed it right, you'll enjoy a small boost as the light goes green!

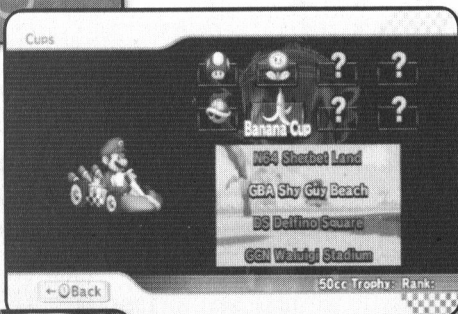

## How Do I Unlock Expert Ghosts?

Unlock an Expert Staff Ghost by defeating the Regular Staff Ghost by at least seven seconds. You must unlock these faster Expert Staff Ghosts before you can unlock special characters like Baby Luigi and Funky Kong.

## Racer Unlocks!

Here are all the unlockable racers in Mario Kart Wii. Unlike other Mario Kart games, you can unlock some of these characters two or three ways, but winning races is always the fastest—and sometimes the easiest! You need to meet only one goal to unlock a racer.

Kart Racer	Goal #1	Goal #2	Goal #3
Baby Daisy	Earn one star or higher in all Wii Cups	Race in 1,950 races	N/A
Baby Luigi	Open 8 Expert Staff Ghosts	Win 100 Wi-Fi Ghost races	Race in 3,150 races

Mini games feature three difficulty levels: Mushroom, Flower, and Star. If you win all the mini games on Star level, you'll open a Mini Game Madness mode that offers a multiplayer contest where you randomly play five of the nine mini games in the game.

# MLB: THE SHOW 09

PSP, PLAYSTATION 2, PLAYSTATION 3

## Control Issues?

The pitching in MLB: The Show 09 is extremely realistic, especially in Road to the Show (RttS) mode. Gamers who are used to baseball games with arcade-like pitching find that aim-the-pitch-and-throw-hard strategies won't work. These pitching statistics can help your team win more RttS games:

## Stamina

Stamina points are a key factor if you're building a starting pitcher (SP), especially if you want to pitch beyond 80 pitches. Good closers and relief pitchers don't require as many stamina points.

## Pitching Clutch

All types of pitchers require a solid Pitching Clutch score to help them deal with pressure in challenging situations. You want a clutch player who can handle loaded bases or a full pitch count in the late innings of a tied game.

## H/9, HR/9, K/9, BB/9

Improve these attribute numbers to improve your score:

- + H/9 is your hits per inning. If you improve your H/9 score, the computer players are less likely to make contact with the ball, and when they do the ball won't carry as far.
- + A high HR/9 score means that your pitcher will give up fewer home runs.
- + K/9 is the number of strikeouts you'll earn in games.
- + A high BB/9 helps improve your control so you're less likely to give up walks. If you're looking for good control, raise your BB/9 attribute score through extra training.

## Pitch Types, Control, Velocity, and Movement

With high attributes for Pitching Clutch and BB/9, you can build on the velocity, control, and movement in your pitches. Many new players dump points into the control attributes while ignoring other broad characteristics like BB/9 and Pitching Clutch. Remember: Any points spent on improving

the control attributes of your fastball or curveball only work for that one pitch—but if you spend more points in BB/9 or Pitching Clutch, you improve the results for every pitch that you deal from the mound.

**MOTOGP 06****XBOX 360****Faster Race Seedings in Career Mode**

Earning all of the Career Seeding Achievements in MotoGP '06 will take hours, but you can speed up your rise to the top by reducing each race to a single lap. You must still race hard and fast, but these one-lap contests advance your career much faster than playing the game on default settings. The trick is knowing how to reduce race laps, because the game designers didn't make it an obvious option in Career Mode.

- + At the Main Menu, choose Single Player, and then Racing Career.
- + Choose Any Class and press the Y Button to access the Options Menu.
- + At the Options menu, change the Laps setting from three laps to one lap.
- + Now you're geared to roll through some fast seedings!

## NASCAR 09

XBOX 360

### Make Your Car Exceed 200 MPH!

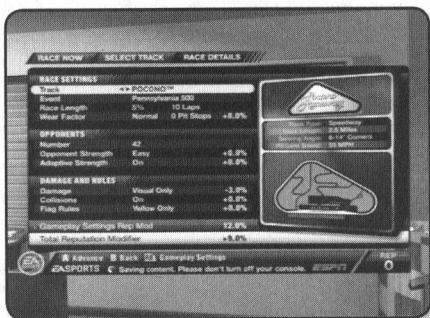

If you want to open the Kid Dyno-mite Xbox Gamerscore achievement, you must exceed 200 mph on a racetrack in any game mode. Most experienced racers will tell you to customize your car setup and choose a track with a long straightaway like Pocono or Michigan Speedway, but here's a simpler solution:

- Turn off the Braking Assists feature at the Difficulty Settings menu.

The Braking Assists feature is there to help you identify where to brake when you're going into a turn so you can avoid hitting a wall. However, you don't need to worry about walls if you're going for this achievement. Your goal is to reach 201 mph at any point on the track, and with Braking Assists on you'll rarely top 189 mph.

**Tip:** Once you're familiar with the game and tracks, consider turning off the Braking Assists for other game achievements. You'll earn better lap times—you'll also find that disabling Braking Assists is the easiest way to beat Ryan Newman in the Sprint Driver Challenge mode!

## NBA 2K6

XBOX 360

### Earn 1,000 Points!

Because NBA 2K6 and College Hoops 2K6 are similar and offer nearly identical controller functions, you'll find that it's easy to transition from earning 1,000 Gamerscore Achievements in one 2K6 basketball game to the next.

- + To run up good numbers for multiple Gamerscore achievements, choose one of the perfect-rated (ranked at 100 points in defense and offense) teams like the Western Conference

All-Stars. Choose the Toronto Raptors as your opponent, because they have the lowest overall ratings and lowest defense rating.

- ✦ Before you start a game, go to the Options menu and adjust the Game sliders so you always have three-point success, block success, and rip success. If you really want to make the game easy, you can reduce the sliders for the away team—but the game between the Western Conference All-Stars and the Toronto Raptors is already a colossal mismatch, even if you choose the default game settings.

- ✦ At the Options menu, you'll also find the Gameplay settings. Slide the difficulty sliders down to Rookie difficulty and turn off the Fatigue and Injuries options. Crank up the Quarter Length to a full 12 minutes, and you might be able to fulfill all of your Gamerscore achievements in a single game!
- ✦ While you're at the Options menu, drop down to the NBA Rules menu and turn off the Charging, Blocking, Reaching, and Shooting fouls. Be sure to disable the Goaltending penalties, too. Now you're ready to add another 1,000 points to your Xbox Gamerscore!

## Get a Triple-Double

**250 points**

What's a triple-double? That's when a player earns double-digit points in three of these five categories: points, steals, assists, rebounds, and blocked shots. If you set the Quarter Length in

the game to 12 minutes, there's a good chance that you'll have several players with triple-doubles before the game is over. You improve your chances by making sure that your three-point shooter is also stealing for the entire team, especially if you max out your Rip Success, Pick Success, and Three-Point Success ratings at the Game Sliders menu. To seal the statistical deal before the end of the game, have the three-point shooter pass to the other players for at least ten assists.

### Score 50 Points with Any Player 150 points

If you have a three-point shooter making 15 three-pointers in a game, that will get him to 45 points, so if you just complete two more three-pointers, you'll make this achievement with no problems. Remember to adjust your Three-Point Success ratings at the Game Sliders Menu and extend the Quarter Length in the game to 12 minutes. This way, you'll have no problem completing this achievement in the first quarter.

## Score 140 Points with Any Team 200 points

With the Three-Point Success ratings maxed on the Game Sliders menu and the Quarter Length set to 12 minutes, you'll probably reach 140 points before the half.

## Make 15 Three-pointers in One Game 150 points

If you set the sliders to the same settings outlined for getting the triple-double Gamerscore achievement, you'll have no problem earning this achievement before the end of the first quarter. Just remember to feed the ball to one player (someone like Kobe Bryant) and then let him take the shots. Once the Three-Point Success rating at the Game Sliders menu is maxed, you'll probably notice that you can make three-pointers from quite a distance behind the three-point line. Don't go too far back—most shots near mid-court will still miss the basket.

**Grab 20 Rebounds with  
Any Player  
250 points**

Once you earn 140 points, pause the game and return to the Game Sliders menu. Now adjust the Three-Point Success slider all the way down to nothing. While it's unlikely that your players will hit from the three-point line, you can still steal the ball and earn offensive rebounds from your missed shots. Just be sure to attempt the three-pointers whenever you have players in or near the paint. If you set the Quarter Length in the game to 12 minutes, several of your players will probably have at least 20 rebounds before the final buzzer sounds.

**Tip:** *Unlocking all of these accomplishments will also net you a ton of NBA 2K6 Crib Points that you can use to add new furnishings to your rooftop Crib. Check it out at the Features menu.*

**NBA LIVE 09**

**XBOX 360, PLAYSTATION 3, PSP**

**Best Team Picks for  
Dynasty Mode**

If you're going to win big (or if you want to simulate some games for an easy winning season), these powerhouse teams are the best choices for NBA LIVE 09's Dynasty Mode:

**Dallas Mavericks**

The Mavericks have the highest overall NBA rating in the game.

**Phoenix Suns**

Shaq is a year older, but still one of the best beneath the basket.

**Houston Rockets**

The combo of Yao Ming and Tracy McGrady make this team a contender.

**Boston Celtics**

Kevin Garnett, Paul Pierce, and Ray Allen are an exceptional power trio.

**Utah Jazz**

You can improve the Jazz by trading Ronnie Brewer for a stronger Shooting Guard.

**Los Angeles Lakers**

Kobe Bryant remains the highest rated player in NBA LIVE this season.

## The Sprite Promotion Is Over! How Do I Get Super Dunks Mode?

Shortly after the release of NBA LIVE 09, you could find the code for Super Dunks Mode inside Sprite bottle caps. If you go to the Sprite vending machine at the NBA LIVE Academy gym, you can activate this mode by entering: **SPRITESLAM**

## Garage Games

Look inside the garage where you choose your ride. Scroll down past "More..." at the bottom of the menu. Choose it and then select "Walk around this garage." Inside the garage you can play demos of Geometry Wars and Geometry Wars Retro. If you play both of these games, you'll unlock the Arcade Player Gamerscore Achievement!

## Kudos for Concept Cars

Before you can buy a concept car, you must earn Kudos to unlock it. Kudos are points that you earn by pulling off a move during a race. Kudo-earning moves include jumps, spins, passes, drifts, and driving a clean section on a race course. You can add Combo Bonuses to your Kudo Stash by quickly executing several Kudo moves in a single race—as long as you don't hit obstacles or other racers. When you earn enough Kudos, you'll unlock a concept car. Use

of your opponents into the railings—but don't hit anything in the middle of tricks or you'll lose Kudos! The easiest way is bump a motorcycle racer so he has to jump on his bike again, but you can also do it to other motorists by pushing them into railings. If you do this on the last lap of the race, your opponent will have a tough time catching you before the finish line.

### Three Important Ways to Win World Tour Mode

Adding ATV upgrades is important for winning in World Tour mode, but most players find themselves falling behind if they try to create one do-it-all ATV for winning every event. The most popular strategy among experienced racers is to unlock and build three distinct ATVs:

- + A Freestyle ATV equipped with parts for high stats in Tricks and Handling
- + A Race ATV equipped with parts for high stats in Max Speed and Handling
- + A Sprint ATV equipped with parts for high stats in Acceleration and Handling

As you win races and unlock more parts, fit the parts that improve your specific performance in your specialized ATVs. The extra time you spend modifying your ATVs will save you hours of frustration on the trickier courses—and that's more time you can spend winning or looking for hidden shortcuts!

## RACE PRO

XBOX 360

### Brake Before the Turns, but Don't Sweat Most Gravel Detours

Like Grid, Gran Turismo Prelude, and Forza Motorsports 2, Race Pro emphasizes straight-line braking before sharp turns, so it's important to slow down before going into the turns. Otherwise, you'll end up skidding and possibly taking a trip off track.

The big difference between Race Pro and other racing games is that you won't slow down much when you drive off the track and into the gravel—at least in Career Mode's Novice and Semi-Pro difficulty levels. If you skid off-road on courses like Curitiba or Anderstorp, keep your foot on the gas and steer your way back onto the course before other cars can catch up. In some cases, a quick excursion through a gravel trap might give you three extra seconds over your competition, but if you take a large off-road detour, you'll be penalized for cutting the track! At the Professional level, you'll find that your racing rivals quickly catch up whenever you drive off the course.

### What Do the Numbers above Each Turn Mean?

Whenever you approach a turn on any racecourse, you'll see an arrow appear with a number next to it. These

arrows and numbers show you the direction of the turn and the gear you should be in to navigate the corner. If you're not sure which gear you're in,

it's the large number in the middle of the tachometer dial in the lower right corner—the one just above your speed display.

If you want to win on the Professional difficulty setting, consider these gear/corner numbers as guidelines, not rules, especially when you move into the more advanced cars like the Formula BMW open-wheel cars. At the Professional level, your opponents are extremely fast, so push your luck and skill by taking these tricky turns in higher gears, but you'll wear down your tires faster in long races than you would during short sprints.

## Patience Is the Winning Strategy

At all difficulty levels in Race Pro, you'll race against aggressive computer-controlled rival drivers. Your chances of a wreck are much higher on courses with a tight or close first turn near the starting line. Examples of these courses in the early levels include Brands Hatch, Anderstorp, Zandvoort, Oschersleben, and Laguna Seca. Keep these dangerous early turns in mind when you're racing. If you're not in pole position and you can't get away cleanly, don't try threading the needle by weaving through traffic—your rivals will cut you off, intentionally spin you, or possibly damage your car. Instead, keep

your place in the pack through the first early turn and let the other drivers sort things out. Then, push hard to pass everyone on the first or second long straightaway. This patient strategy gives you the edge in the races—and the game!

## REEL FISHING: ANGLER'S DREAM

NINTENDO WII

### Know What You Need to Catch to Reach the Next Stage

If you know what you're trying to catch in Reel Fishing, Angler's Dream, you'll quickly move through the stages in the game. Outlined below are the target goals for all of the fishing locations.

Stage	Target Fish
Lake	Catch three fish.
Midstream	Catch four Pale Chubs.
Rocky Coast	Catch a Parrotfish and a Black Porgy.
Mountain Stream	Catch a Yamame Trout and a River Mackerel
Back to the Lake	Catch the Golden Black Bass!
Open Sea	Catch a Yellowtail Tuna larger than 71 inches.
Upstream	Catch a Rainbow Trout and a Sakura Trout.
Pond	Catch a Deepbodied Crucian Carp larger than 14 inches.
Beach	Catch at least five Bonefish.
Back Upstream	Catch the Brilliant Rainbow Trout
Headwaters	Catch at least two Char that are larger than 18 inches.
Downstream	Catch at least six Pink Salmon.
South Seas	Catch three Giant Trevally and three Dorado.

**Note:** You don't have to catch all of your target fish for a stage in a single day. You can always return to your fishing spot and try again the next morning.

## SEGA RALLY REVO

XBOX 360

### Unlock the Secret No-Collision Achievement!

Some video game racers consider SEGA Rally Revo to be one of the toughest racing games released on the Xbox 360, but this arcade racing title rewards smart players who use strategy to win and unlock achievements! The secret no-collision achievement is worth a whopping 80 points, so it's worth the extra effort: Practice driving (and winning!) Safari 1 in the AZA Challenge stage. This

is the first course you'll encounter in the game and one of the widest (even at the single hairpin turn), so most drivers find that it's the easiest to win.

**Note:** You could also drive the hairpin-free Canyon 1 if you prefer that course instead, but the Alpine 1 course features three narrow hairpin turns that almost guarantee a collision with nearby rival drivers.

You're trying to avoid hitting other drivers to win this achievement, so don't crowd the other racers at the start. Your goal is to pass each racer carefully one at a time, so avoid the jostling right after the start line—but don't allow your rivals to drive away with a huge lead.

**Tip:** As you work your way through the pack, avoid the driving line (the skid marks where other drivers were driving) and you'll find it easier to stay away from the other cars. Avoiding the driver's line will also take you around some of the big water obstacles that slow down other cars, and help you avoid the slick sections where other vehicles ripped up the mud on previous laps.

If you time your moves right, you should be leading everyone—without a single dent to your car—on the final lap!

## SETTLERS OF CATAN

### XBOX 360

#### Favorite Winning Strategies Against Computer Players

Several key strategies for playing Settlers of Catan apply to both the Xbox 360 game and the real board game. In the Xbox version, it's important to remember that computer players will stop trading with you once you have a substantial lead. The trick is to keep the game close until you're in a position to build and earn victory points without relying on other players in the game!

## Brick and Wood Strategy

Brick and ore are two rare commodities on the board, so place a settlement on a brick spot early and then grab a wood. Your strategy is to build roads and establish new settlements faster than your opponents—and the players who hold brick and wood on good numbers always expand quickest in the beginning of a game. Focus first on wood and brick hexes with the numbers 5, 6, 8, and 9. If you isolate one or more of your opponents, you can cut off their expansion and slow their progress. The brick and wood strategy is one of the most popular strategies used by new players, although it only works when your numbers are rolled more than other player's!

## The City Strategy

You can build cities faster than other players if you place your starting settlements around

ore and grain hexes; however, you must rely on trading to acquire important commodities to build roads and additional settlements. If you're going to use this city-building strategy, it's a good idea to expand your road and settlement network before you build cities. This makes the beginning of the game a little tough. Computer players will be reluctant to trade with you once you're a couple of cities ahead of them. As you build roads, try putting a settlement on a sheep hex so you can add more development cards to your holdings.

### **The Development Card Strategy**

Starting out with a large number of ore, grain, and sheep options allows you the freedom to buy development cards. It might also allow you to keep your total victory points hidden from the computer players. You can also use your ore and grain cards to build cities. But remember that your computer opponents can see these cities, and they'll stop trading with you if you gain a large lead. The Development Card strategy is a favorite among experienced players who know how to use all the cards in the deck. The soldier cards offer a great defense against the computer characters because they often slow you down by leaving the robber next to your most productive settlements and cities.

### **The Balanced Commodity Strategy**

The balanced commodity strategy works only if the game rolls your numbers often. If you place your starting settlements next to brick, wood, grain, and sheep (or three of those commodities and a 3:1 port), you have a balance of materials for building roads and settlements. Some players push this advantage further by adding ore to their starting group, but it's difficult to start with all of these commodities on the first turn.

There's a danger of being isolated by players who build roads around you, cutting off your expansion options. If your numbers don't come up, you must trade with your computer opponents—but they won't be willing to make deals near the end of the game, so your strategy comes down to luck on the die rolls.

While there are other trading strategies involving trading that players use in the board game, remember that your computer opponents won't be forced into unfavorable trades.

If your strategy for winning depends on trades late in the game, the only way the computer has a chance to win is by rejecting your trades and gambling on better numbers rolling on the next turn.

# TEENAGE MUTANT NINJA TURTLES

XBOX 360

## Teenage Mutant Ninja Turtles Gamerscore points

### Clean Sweep

50 points

Complete a level without receiving damage. The easiest way to do this is by replaying the first level and using your slam attack to stun your foes before finishing them off. Bad jumps can also hurt, so take your time.

### Get Your First Coin

15 points

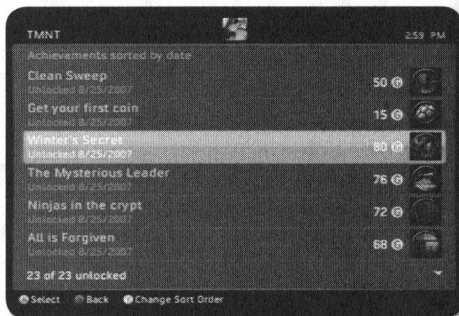

You can usually knock off this achievement in the first level. Just grab any coin.

### Winter's Secret

80 points

Defeat all three of the bosses in Level 16 and win the game. If you're having trouble with the henchmen, take out the archers before clearing the rest of the enemies in the room. Look for a pattern in the platforms leading up to the top of the building.

### **The Mysterious Leader**

**76 points**

Complete Winter's Tower—level 15 (the second-to-last level in the game). This area has many tough jumps and if you don't have an HDTV, it can be tough to see some obstacles from the shadows. If you're having trouble seeing where to step, pause the game and adjust the contrast or brightness on your television.

### **Ninjas in the Crypt**

**72 points**

Fight your way through level 14 and Rescue Leo.

### **All is Forgiven**

**68 points**

Complete level 13. While this level takes place in the city during the day, the jumps and wall moves are difficult in places, so you might need a couple of attempts before you clear all the checkpoints.

### **Bite me!**

**64 points**

Complete level 12. The jumps in the sewer are numerous and hard to spot in places, so take your time.

### **O Brother, Where Art Thou**

**60 points**

Fight your way through level 11. This is also the first stage in the game where you can use Raph's special move.

### **Used Raph's Special Move**

**30 points**

Use Raph's special move in level 11—you must use it at the beginning of the stage to escape from the cell.

### **When the Slime Comes**

**56 points**

Complete level 10 in the subway maze. Press your A Button whenever your turtle falls into the slime or you'll take damage.

### **Tower Power**

**52 points**

Complete level 9. Fight your way past enemies using Nightwatcher.

### **Foot trail** **48 points**

Complete level 8. You must hurry through this rooftop level or the truck that you're chasing will get away. Run along the easy parts so you'll have more time to concentrate on the difficult jumps.

### **The Game is the Foot** **44 points**

Complete level 7. The trick is to measure your jumps so you safely clear the electrical rooftop wires.

### **Ninja Tag Time** **40 points**

Complete level 6. You can also earn your Family Unit Gamerscore achievement by pressing the X Button to perform a combination attack.

### **Family Unit** **15 points**

Do a combination attack with any other available turtle by pressing the X Button. You can earn this Gamerscore achievement on the dark city rooftops in level 6 of Ninja Tag Time.

### **Spirit of the Forest** **36 points**

Complete level 5. This forest area is also where you'll use Leo's special move to unlock another Gamerscore Achievement.

### **Used Leo's Special Move** **30 points**

Use Leo's special move to teleport through bars in Spirit of the Forest (level 5).

### **Cowabunga Carl Getaway** **32 points**

Complete the fourth level in the game, but watch your step on the rooftops. You'll also use Mike's special move here.

### **Used Mike's special move** **30 points**

Use Mike's special move in the Cowabunga Carl Getaway level (level 4).

## VIVA PIÑATA: TROUBLE IN PARADISE

XBOX 360

### Understand Your Gardening Limits!

How many resident piñatas can you have in your garden? That depends on how your garden grows! For the original Viva Piñata and Viva Piñata: Trouble in Paradise, the maximum possible in some gardens is no more than 35, but some players have fewer residents because of their Xbox 360 memory space. If you have fewer than 35 piñatas and the game tells you that your

garden is full, try removing a few trees and other large objects. Big trees and detailed designs eat up extra Xbox 360 memory space. Piñata gardening limits are not limited to exact counts, but by how much memory space is available on the Xbox 360 console, so if you like to decorate your garden with a heaping of clutter, you might find that you can only accommodate 30 resident piñatas. Good to know.

## WE SKI

NINTENDO WII

### Unlock the Ski Patrol Uniform!

Star points unlock most clothing and accessories in *Wii Ski*, but you can only wear the Ski Patrol uniform after you successfully complete a special rescue mission. You must talk to the Ski Patroller at the top of Owl to start this mission. You won't be asked to help unless you complete most of the Ski School assignments (go ahead and complete all of the Ski School stuff because you'll earn a Ski School outfit).

The Ski Patroller will tell you to rescue the skiers stuck in the snow. However, the real challenge here is stopping above the victims so you don't have to sidestep back up the slope. If you plan your route and don't pass anyone by, you should have no problem earning your Ski Patrol uniform.
